How are the status and department fields used in Tipasa patron information?

Last updated: Mon, 09 Mar 2020 18:10:29 GMT

Applies to

- Tipasa

Answer

- If these two data fields are located in the Tipasa workform then the data will pull into the Borrower Resource Sharing Stats Report in the OCLC Usage Statistics Portal
- These two data fields can be included in patron load data through the fields illPatronType and illPickupLocation
- This is not a searchable data field
