How do I stop my library from getting International Borrowing Requests?

Objective

- The library does not want to lend items internationally

Applies to

- WorldShare ILL
- Tipasa

Steps

Make an adjustment in the Policies Directory to limit to US lenders.

1. **Login** to the Policies Directory.
2. **Go** to the Policies Tab.
3. **Edit** the loan policies for this location. If you select the United States as the Country, this will limit your lending to just the United States.
