How do I stop my library from getting International Borrowing Requests?

Objective
• The library does not want to lend items internationally

Applies to
• WorldShare ILL
• Tipasa

Steps
Make an adjustment in the Policies Directory to limit to US lenders.

1. Login to the Policies Directory.
2. Go to the Policies Tab.
3. Edit the loan policies for this location. If you select the United States as the Country, this will limit your lending to just the United States.
