How do I stop my library from sending International Borrowing Requests?

Last updated: Fri, 13 Jul 2018 14:05:24 GMT

Objective

• The library does not want to borrow items internationally

Applies to

• WorldShare ILL
• Tipasa

Steps

Make an adjustment in the Policies Directory to limit to US lenders.

1. Login to the Policies Directory.
2. Go to the Policies Tab.
3. Edit the loan policies for this location. If you select the United States as the Country, this will limit your lending to just the United States.
