Answer

Subscribe to the Z39.50FS-L Internet list, which is used to distribute important news about Z39.50 access to FirstSearch. As a broadcast only list, it only has a few messages; however those messages can be of important database changes. OCLC recommends that at least two people from each FirstSearch Z39.50 institution subscribe to the list so important news is not missed if someone is out of the office for several days. To subscribe to this or other OCLC Internet lists, complete the form for an [OCLC Internet List Subscription Request](https://help.oclc.org/Discovery_and_Reference/FirstSearch/Troubleshooting/How_can_I_learn_about_future_changes_to_Z39.5).
