Why is there not an option to deselect an individual title from a customizable collection?

Last updated: Wed, 01 Aug 2018 14:52:01 GMT

Applies to

- WorldShare Collection Manager
- WorldCat Knowledge Base

Answer

When a library selects a customizable knowledge base collection as a whole, they will not see the option to deselect an individual title. A library will need to [modify a collection](https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Troubleshooting/Why_is_there_not_an_an) to be able to see the option to deselect an individual title.
