Why is there not an option to deselect an individual title from a customizable collection?

Last updated: Fri, 26 Mar 2021 15:26:14 GMT

Applies to

- WorldShare Collection Manager
- WorldCat Knowledge Base

Answer

When a library selects a customizable knowledge base collection as a whole, they will not see the option to deselect an individual title. A library will need to modify a collection to be able to see the option to deselect an individual title.

Additional Information

Here is more information about selecting a knowledge base collection in full.
