How do I access previous Hosted EZproxy logfiles and statistics?

Last updated: Fri, 15 Oct 2021 15:11:34 GMT

 Applies to

- Hosted EZproxy

Answer

The Hosted EZproxy monthly logfiles are not left on your SFTP account indefinitely, and we do ask that you delete them once you've downloaded them.

In order to access your log files you will need admin credentials to your Hosted EZproxy server.

1. Please contact OCLC Support if you need your Admin/sftp credentials
2. To access any log files, go to How do I see EZproxy monthly usage data and statistics?
