My holdings are not displaying in WorldCat Discovery

Symptom

- All holding(s) associated with one OCLC symbol are not displaying in WorldCat Discovery

Applies to

- WorldCat Discovery

Resolution

1. In Service Configuration go to WorldCat Registry and make sure that all of the information regarding your institution is correct including the details in the Map section.
2. Verify that your institution has a holding on the item(s) using Connexion, WorldShare Management Services Circulation or Record Manager.
3. If holdings are still not displaying then contact OCLC Support.
