New features and enhancements

WMS group cataloging reports

Group cataloging reports are now available in WMS Report Designer.

WMS Groups can use the tools available in WMS group cataloging reports to monitor your group's activity within WorldShare Record Manager.

In order to use this functionality:

- Your group must be set up as a WMS Group.
- All group member institutions must be Report Designer customers.
- Your group must designate administrators. Group report administrators will see all data for the group (e.g., Circulation Administrators will see all patron and circulation data across the group). Please confirm your WMS Group leadership is aware and accepting of this functionality.

If the above prerequisites are met and your group wishes to pursue WMS Group reporting, please contact analyticsfeedback@oclc.org. The OCLC Analytics team will be responsible for applying the necessary roles in order to allow the admin user to perform group-level reporting. OCLC Analytics will provide additional information about running these reports and understanding the output.

If your group has already enabled group reporting and wishes to add group cataloging reports, please contact

Bug fixes

Extraneous titles included in the WorldCat knowledge base - Collection Overlap Detail Report

Prior to this this release, the WorldCat knowledge base - Collection Overlap Detail Report included items without OCLC numbers or titles in the last section of the report. Now, the report will not include this extraneous section.

Other considerations
Ability to Add a Privacy Notice for Staff and Patrons

Institution administrators can now request OCLC to add an institution-defined privacy notice to the staff and patron login step for many OCLC services including WorldShare Reports.

If you add a privacy notice, it will be displayed after the staff or patron is presented with their login screen. The number of times the privacy notice is displayed is based on the timeframe configured for the institution.

To request the addition of a privacy notice for your institution, please contact OCLC Support in your region.

To illustrate an example, below are three screenshots that show the sequence for displaying the privacy notice. Once you login (first screenshot) you are presented with the privacy notice (second screenshot). Once you click Continue, or if Continue is not selected after 40 seconds have passed, you progress to your application (third screenshot).
