How do I search collections I haven't selected?

Last updated: Thu, 02 Apr 2020 18:03:35 GMT

Applies to

- WorldShare Collection Manager

Answer

Unchecking **Limit by My Selected Collections** beneath **Search Term(s)**, then clicking **Search** without a search term will load all collections available.

![Collection Manager](https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Troubleshooting/How_do_I_search_coll...)

**Search**

- **Scope**: Collection
- **Search Term(s)**
- **Limit by**: My Selected Collections

Additional information

If you set **Scope** to **Title** and input a search term, such as a record's title or OCN, all collections with this record will be shown, both from collections you have selected and those you have not.
