How can I control NTA headings in WorldShare Record Manager?

Last updated: Wed, 14 Nov 2018 11:48:49 GMT

Applies to

• WorldShare Record Manager

Answer

Find NTA Authority Record:

• Select from drop-down list **Data Type** the option **Authority Records**
• Select from drop-down list **Scope** the option **NTA Names**
• Enter the authors name at the search field by **Term(s)**
• Open the Authority Record
• Copy the whole field 100

Return to the bibliographic record and paste the content of field 100 from authority record to the appropriate authors field.
