Answer

The **Copyright compliance** setting can be found at the bottom of the Borrowing Library tab for Copy requests only. It does not appear on Loan request types because all of those are CCL requests. If you do not see the option, check the request **Type** to see if it is set to "Copy". If it isn't, switch it.

Tipasa has several additional [Copyright management](https://help.oclc.org/Resource_Sharing/WorldShare_Interlibrary_Loan/Troubleshooting/How_can_I_update_the_c...) features than WorldShare ILL.
