We completed a weeding project, and records were not updated with OCLC. What options are there to clean up our OCLC Holdings?

**Last updated:** Wed, 24 Jul 2019 20:09:02 GMT

**Applies to**
- WorldShare Collection Manager

**Answer**
You may be interested in setting up a data sync collection for your institution. There are different [types of data sync collections available](https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Troubleshooting/What_options_are_there_to_clean_up_OCLC_Holdings/). In addition, if your library still has the MARC or non-MARC data from the weeded items, the library can do a [delete WorldCat holdings collection](https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Troubleshooting/What_options_are_there_to_clean_up_OCLC_Holdings/).

If you no longer have any records of what was deleted, the library may want to consider a [reclamation](https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Troubleshooting/What_options_are_there_to_clean_up_OCLC_Holdings/).

If you are interested in learning more about a reclamation, contact [OCLC Support](https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Troubleshooting/What_options_are_there_to_clean_up_OCLC_Holdings/).
