Learn how to sign in to the OCLC Community Center directly or from the WorldShare interface. The OCLC Community Center allows users to sign in with their WorldShare credentials or WorldCat Discovery staff accounts. This means that users can sign in with the username and password they already use to sign in to WorldShare or WorldCat Discovery.

Community Center credentials

Any staff member at an institution with a product community in the Community Center may create or request WorldShare credentials if they do not already have them. Users of non-WorldShare products with communities (CONTENTdm, EZproxy, FirstSearch, GreenGlass, WebDewey) still need WorldShare credentials to access these communities. Any WorldShare user with the Admin role may create these credentials or users may request them directly from OCLC using the forms below.

Non-WorldShare community credential request forms

- CONTENTdm
- EZproxy
- FirstSearch
- GreenGlass and Shared Print
- WebDewey

If you have questions about how to create or request accounts, please contact OCLC Support.

Sign in to the Community Center

You can access the Community Center through two primary routes. You will need to know your institution’s OCLC symbol and your WorldShare username and password to sign in either way.

Access the Community Center for the first time

The first time you sign in to the Community Center, you will be asked to make some selections that will be saved for future sessions. You may make updates to these selections at any time.

1. The first time you sign in to the Community Center, you will be asked to select whether to link or delink your Community Center profile from your WorldShare account. Make your selection, then click Go to my profile.
Note: For additional information about your selection options, see [Link your OCLC Community Center profile with your WorldShare account](https://help.oclc.org/Librarian_Toolbox/OCLC_Community_Center/0_Sign_in_to_the_OCLC_Community_Center).

2. After you make a linking selection, you will be taken to your profile page. On your profile page you will be prompted to complete certain fields based on your linking selection. After you have completed updates to your profile, click Save. See the table below for details about each field.

<table>
<thead>
<tr>
<th>FIELD</th>
<th>LINKED PROFILE</th>
<th>UNLINKED PROFILE</th>
<th>NOTES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Account Linking</td>
<td>Automatically populate your profile with information from your WorldShare account</td>
<td>Do not automatically populate your profile with information from your WorldShare account</td>
<td>You must make a selection; however, you can change your selection at any time by clicking Change Profile on your profile page.</td>
</tr>
<tr>
<td>Email</td>
<td>Not editable and automatically populated with the email address entered in your WorldShare account. (Any changes to this field must be made in WorldShare).</td>
<td>Enter any email address you wish to use for Community Center subscriptions.</td>
<td>Email notifications for any Community Center subscriptions will be sent to this email address.</td>
</tr>
<tr>
<td>Display Name</td>
<td>Enter any display name</td>
<td>Enter any display name</td>
<td>Your display name must</td>
</tr>

</tr>
<tr>
<td>About me</td>
<td>Enter any details you’d like to share about yourself.</td>
<td>Enter any details you’d like to share about yourself.</td>
<td></td>
</tr>
<tr>
<td>Display of personal information (Required)</td>
<td>For both linked and unlinked accounts, you must make a selection about how much profile information to show. Only the fields with information entered will display if you select to <strong>Show all of my contact and institution information and allow my profile to be available in search results</strong> (e.g., if you have not entered a phone number, no phone number will display.)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Note: You will only be prompted to update your profile the first time you sign in to the Community Center. After that you may edit your profile at any time. For additional information see [OCLC Community Center profiles](https://help.oclc.org/Librarian_Toolbox/OCLC_Community_Center/0_Sign_in_to_the_OCLC_Community_Center).
The first time you sign in, we have several suggested steps to make the most of your OCLC Community Center experience. Please see Make the most of the OCLC Community Center.

**Access the Community Center directly**

1. Visit the [Community Center homepage](https://www.oclc.org/products/services/community-center.html).
2. Click the **Sign In** button on the OCLC Community Center homepage.
3. If you are prompted to enter your OCLC symbol, begin typing your OCLC symbol, select your institution from the dropdown menu, then click **Continue**. If you are not prompted to enter your symbol, continue to step 4.

   ![OCLC welcome screen](image)

   **Note:**
   - Make sure the field is fully populated with your symbol, zip code, institution name.
   - Your institution selection will be saved in your browser until your history is cleared, so you will only need to select your institution the first time you sign in. You will not need to select an institution if you have used the same browser to sign in to WorldShare and you see your institution’s WorldShare sign in page after you click Sign In on the Community Center homepage.

4. On your institution’s WorldShare login page, you should see your institution’s name in the upper left corner of the screen. Enter your WorldShare username and password, and click **Sign In**.
   **Note:** If you do not remember your password, click the **Set/Reset password** link and follow instructions to reset your password. If you do not know your username, contact the WorldShare admin at your institution or [OCLC Support](https://www.oclc.org/about/contact.html).

5. On the Community Center homepage, select which product community you would like to visit by clicking that hyperlinked product name.
Note: You will only be able to access communities for products that your institution has active subscriptions to.

Access the Community Center from the WorldShare interface

1. Sign in to your institution’s WorldShare URL (e.g., https://[your library].share.worldcat.org/wms, replacing [your library] with your library’s identifier or WorldCat Registry ID).

2. Select Community Center from the Need Help? drop-down menu in the upper right corner of the screen.

You will be taken to the Community Center homepage, already logged in, and you will see your display name in the upper right corner of the screen.

3. On the Community Center homepage, select which product community you would like to visit by clicking that hyperlinked product name.
   Note: You will only be able to access communities for products that your institution has active subscriptions to.

Bookmark the Community Center or a product community for future access

For quick access to the Community Center or a specific product community, you can bookmark the Community Center homepage or specific community homepages. A couple tips about bookmarking community pages:

- Bookmark the URL of the community center page you wish to visit (e.g., https://www.oclc.org/community or https://www.oclc.org/community/acquisitions.en.html). Any time you access this bookmark, you will be prompted to sign in if you are not already signed in to WorldShare.
