How do I export MARC records to OVID?

Applies to

- OLIB 9.0

Answer

To export MARC records to OVID, please follow the instructions in the User Guide How to Export Records to a Third Party Discovery Service.

Additional information

From SP 11, new functionality has been introduced which allows multi-library OLIB systems to export to more than one 3rd Party Discovery Service (e.g. EDS and OVID).

For further details, see OLIB Service Pack 11 Release Notes.
