Will my ILS interoperate with WorldShare Interlibrary Loan?

Last updated: Fri, 04 Sep 2020 16:59:58 GMT

Applies to

• WorldShare Interlibrary Loan

Answer

There are two types of ISO ILL interoperability that OCLC supports:

1. True ISO ILL (borrowing and lending).
   Examples of supported third-party systems are Auto-Graphics AGENT or SHAREit, Relais, the GIF-J/NII system, etc.

2. ISO ILL Direct Request (ISO IDR, i.e. generate borrowing requests from local ILS).
   Examples of supported third-party systems are Innovative Interfaces, Inc. Millennium, Polaris, Sierra, and SirsiDynix Symphony.
