When running statistics reports it is possible to enter a Transtype as a number. How do I know what those numbers refer to?

Last updated: Mon, 31 Dec 2018 01:44:36 GMT

Applies to

- Amlib Statistics Reports
- Amlib Supervisor

Answer

- The Transtype numbers refer to a table in **Supervisor > LibraryMenu > StatsParams**
- If the Transtype Count is set to Y, the system counts this activity and is held so that statistics can be produced at any time
- For example, 05 is used to count issues and 10 for returns

Additional information

- For more specific information on running Statistical reports, refer to the [Amlib Content Portal for training](https://help.oclc.org/Library_Management/Amlib/Troubleshooting/When_running_statistics_reports_it_is_possible_to_enter_a Transtype_as_a_number. How_do_I_know_what_those_numbers_refer_to_/...)
