Why is the message "Please visit your library to get this item" appearing above our library's availability?

Last updated: Mon, 10 May 2021 14:35:21 GMT

Symptom

- The message "Please visit <your library> to get this item" appears above the availability statement

Applies to

- WorldCat Discovery

Resolution

That message displays depending upon a series of factors. All of the following must occur for it to appear in that form:

- The item is held by the library
- The library is not in a group
- Item availability/holding information is present
- There is no place hold button at level 1
- The item is circulating, but it is not available online (856 links from the OPAC, 856 WorldCat record, LHRs or KB)
- There is no ILL button set to show
- The correct required setting in your **column options** in the Grid found here: WorldCat Discovery and WorldCat Local > OPAC Statuses, Locations and Circulation Policies > Item Availability from OPAC > is incorrect, which causes this message and blocks the **Place Hold** button from displaying.

Additional information

There are many system messages in WorldCat Discovery. You can get a [list of them and what causes them to appear](https://help.oclc.org/Discovery_and_Reference/WorldCat_Discovery/Troubleshooting/Why_is_the_message_Plea...).

See [Column Options](https://help.oclc.org/Discovery_and_Reference/WorldCat_Discovery/Troubleshooting/Why_is_the_message_Plea...) for more information about this setting.
