Where can I change the Operator name assigned to my Cataloging Authorization number

Last updated: Thu, 03 Oct 2019 13:10:56 GMT

Applies to

• Connexion Client
• Connexion Browser

Resolution

You can correct the **Cataloging** authorization name assignments at the [Access and Authorizations](https://help.oclc.org/Metadata_Services/Connexion/Troubleshooting/Where_can_I_change_the_Operator_name...) web site.

The first page is asking about who is making the change. After that, you'll go to a web page that has three links at the top that will let you enter additions, changes and deletions. To edit user information, select the **Change Existing Authorization** link. That will let you change the name, operator greeting and password.

IMPORTANT: This form is static, nothing is sent until you choose **SUBMIT** on the final screen.
