Why is Available listed twice for the status of an item?

Last updated: Thu, 02 Apr 2020 19:06:52 GMT

Symptom

• The status of an item is listed as "Available Available" in WorldCat Discovery

Applies to

• WorldCat Discovery
• WorldShare Management Services

Resolution

If Available is listed twice in the status of an item in WorldCat Discovery, the same barcode may be listed twice on the Local Holdings Records attached to the bibliographic record. To fix this issue, one or both of the barcodes will need to be updated so the same barcode is not in use twice. You can use WorldShare Circulation to Edit single item.

If you encounter more issues or have additional questions, please contact OCLC Support with the OCLC number of the item.
