When do emailed inventory reports from Digby get sent, is it immediate?

Last updated: Wed, 27 Feb 2019 18:20:08 GMT

Applies to
- Digby

Answer
The email submission takes place between the user’s mobile device and the user’s email provider. Factors that can impact how long it takes to receive the email depend on the user’s data plan or WiFi speed, the size of the report and the email service.

It should take the same amount of time as if the user was sending it from their email application.
