Textbox windows are very small and lists do not appear in Connexion client

Last updated: Wed, 08 Jan 2020 16:31:41 GMT

Symptom

- Text boxes and search boxes look like half their regular size or even smaller and lists do not come up in dropdowns when searching in Connexion Client

Applies to

- Connexion Client

Resolution

Change your font settings under **Tools > Options > Fonts** to something other than Arial Unicode MS then restart Connexion client. When it comes back up the textbox windows should be their normal size.
