CAMIO support ended 31 December 2018

Symptom

Applies to

- CAMIO

Resolution

Access to the CAMIO database for FirstSearch and for WorldCat Discovery subscribers ended on 31 December 2018. The expansion of online access to this type of content in recent years has increased researchers' access to images in art museums, thus replacing the need for a discrete database such as CAMIO.

CAMIO users can access their statistics through the OCLC Usage Statistic portal. See Where can I find my CAMIO statistics? for more information.
