Advanced editing of bibliographic data in WorldShare Record Manager

Course description

In this course, you will learn how to use advanced editing features in Record Manager to edit existing WorldCat records and create new WorldCat records, as well as search the Authority File.

Topics covered include:

- Control headings
- Create and apply field strings and text strings
- Create and apply constant data record
- Create and edit local bibliographic data (LBD)

This course is intended for copy and original catalogers at OCLC member libraries who will be using WorldShare Record Manager to edit existing WorldCat records and create new WorldCat records.
