CONTENTdm Server Administration log off or out

Last updated: Mon, 24 Jun 2019 14:29:15 GMT

**Symptom**
- You are logged in your CONTENTdm server administration and wish to log off your session.

**Applies to**
- CONTENTdm
- Server Administration portal

**Resolution**
The CONTENTdm Administrator page does not have a log out button or feature. To do this you will need to clear your browser history cache or open a new private window for the authentication pop to display.

**Additional Information**
This most likely is needed if you are attempting to test usernames and passwords. A private or incognito session is recommended as this will not use any saved passwords

**Page ID**
