How do I set up a Microsoft Access Link for the OCLC ILLiad Hosted Site?

Last updated: Wed, 26 May 2021 20:50:07 GMT

Symptom

- You want to have read access to the SQL Server so you can set up a customized query using Microsoft Access.

Applies to

- ILLiad

Resolution

You need to contact OCLC to get the credentials you will need to use Microsoft Access.

1. You will need the documentation for Setting up the ODBC Data Source Link. Wherever you see ILLiadLink Login ID, you will replace it with the ILLiadLink Login ID we give you.
2. You will need to follow the instructions for Setting up Microsoft Access.

Additional information

Here is the list of ILLiad Database Tables.

If you have any questions about the process, please contact OCLC Support.
