Why don't I see all of the volumes in a multi-volume set in WorldCat Discovery availability?

Last updated: Wed, 19 Jun 2019 19:34:34 GMT

Applies to

- WorldCat Discovery
- WorldShare Record Manager

Answer

Validate that volume information is present in the LHR in one of the following fields:

- As a coded pair in the 85x+86x fields
- As a textual holding in subfield $a$ of the 86x fields
- As a material specified in subfield $3$ in the 87x Item Information fields

Additional information

Please see the Item Status section of the 876-878 Item Information-General Information page for additional information regarding properly coded pairs. For information regarding other 800 fields please see 8xx Fields for Local Holdings Maintenance.
