We would like to set up a data sync collection, how do we get a project ID to set this up?

Applies to

- WorldShare Collection Manager

Answer

The project ID will be assigned to you when you create the data sync collection. It will be called the Collection ID.

Additional information

Please see our step by step guide to [creating a Bibliographic data sync collection](https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Troubleshooting/We_would_like_to_set…).
