Record Manager: Authorities Guide provides details on selected topics that catalogers need to identify and verify information in bibliographic and/or authority records via the authority files that are available in Record Manager by describing indexes that each authority file provides and the MARC tags that data is indexed from.

- Introduction
- Canadiana indexes and indexed fields
- GND indexes and indexed fields
- Library of Congress indexes and indexed fields
- MeSH indexes and indexed fields
- Māori indexes and indexed fields
- NTA indexes and indexed fields

**Keyboard shortcuts for authority records**
