The OCLC Cataloging Express service provides an easy-to-use Web interface for copy cataloging. Copy cataloging is selecting an existing bibliographic record from WorldCat®, adding local data to it, and then adding the record to your local catalog.

- **Get started**
  
  Find information about the CatExpress interface, process, and hardware and software requirements. Discover how to set browser and export options.
  
  - Overview
  - Action buttons
  - Customize the system interface
  - Hardware and software requirements
  - Home page and navigation bar
  - Quick reference
  - Set export options
  - Set options

- **Search and catalog**
  
  Learn how to perform basic and advanced searches as well as how to add local data and multiple location fields, print labels, and export records.
  
  - Add local data
  - Add multiple Location (852) fields
  - Advanced search
  - Basic search
  - Cataloging basics
  - Export records
  - Fix errors
  - Print labels
  - Search results
• **Data fields**

No image available

Find information about data fields in CatExpress and how to map your local system fields to available data fields.

- Call number: Class, Cutter, Type (09x) field
- Data fields mapped to local system fields
- General Note (500) field
- Location (852) field
- Nonpublic Note (590) field
- OCLC Holding Library Code (049) field
- Price (020) field
