The OCLC Cataloging Express service provides an easy-to-use Web interface for copy cataloging. Copy cataloging is selecting an existing bibliographic record from WorldCat®, adding local data to it, and then adding the record to your local catalog.

- **Get started**
  
  Find information about the CatExpress interface, process, and hardware and software requirements. Discover how to set browser and export options.
  
  - Overview
  - Action buttons
  - Customize the system interface
  - Hardware and software requirements
  - Home page and navigation bar
  - Quick reference
  - Set export options
  - Set options

- **Search and catalog**
  
  Learn how to perform basic and advanced searches as well as how to add local data and multiple location fields, print labels, and export records.
  
  - Add local data
  - Add multiple Location (852) fields
  - Advanced search
  - Basic search
  - Cataloging basics
  - Export records
  - Fix errors
  - Print labels
  - Search results
• **Data fields**

  Find information about data fields in CatExpress and how to map your local system fields to available data fields.
  
  - Call number: Class, Cutter, Type (09x) field
  - Data fields mapped to local system fields
  - General Note (500) field
  - Location (852) field
  - Nonpublic Note (590) field
  - OCLC Holding Library Code (049) field
  - Price (020) field
  - Summary (520) field
  - Target Audience, Scale, Source (521) field

• **Transaction reports**

  Discover how to view and download transaction reports.
  
  - Monthly transaction reports
  - View or download transaction reports
