The OCLC Cataloging Express service provides an easy-to-use Web interface for copy cataloging. Copy cataloging is selecting an existing bibliographic record from WorldCat®, adding local data to it, and then adding the record to your local catalog.

• Get started

Find information about the CatExpress interface, process, and hardware and software requirements. Discover how to set browser and export options.

  ◦ About CatExpress
  ◦ Action buttons
  ◦ Customize the system interface
  ◦ Hardware and software requirements
