Answer

You may see this status of Awaiting Article Exchange Review because there are errors on the Article Exchange server. You can re-route the request to Awaiting Article Exchange Retrieval. Please see the documentation here for more information on "Awaiting Article Exchange Review" on the documentation page for [OCLC Article exchange Receiving](https://help.oclc.org/Resource_Sharing/ILLiad/Troubleshooting/What_does_it_mean_when_I_see_Awaiting_Article_Exchange_Review).
