This article describes the search results hitlist and how to drill down to a specific database or view location details.

**Results hitlist**

Once the search results are retrieved, a brief record for each item is displayed. The results display shows brief bibliographic information, the number of holdings and the collection in which the record has been found.

### Results

You searched for **(Title Equal Phrase "black holes" AND Author Equal Word "shipman")** in Anoka PL, St Paul FL, Miley, Midi Hudson, EUNY New Paltz, Franklin D Roosevelt Library, Univ of Toronto, TUG, Concordia Univ, Bishop's Univ, TRAC, Edmonton PL, INF.

<table>
<thead>
<tr>
<th>Page</th>
<th>Title</th>
<th>Author</th>
<th>Year</th>
<th>Location</th>
<th>Holdings</th>
<th>LCCN</th>
<th>Collection</th>
</tr>
</thead>
</table>

NRE/VDX automatically displays an initial set of 10 hits from each collection searched. Further results can be returned and displayed if required by clicking further page numbers:

- Result pages: 1 2 3 4 5 6 7 8 9 10

Displaying results as they are requested is a more efficient use of network resources than automatically displaying all hits.

Results are displayed in the order they are returned from the collections. When searching multiple collections simultaneously, the hits from the fastest database are displayed first.
You can bring the results from a specific database to the top of the list by clicking the database links – the illustration below shows how to sort the results so those from the University of Toronto appear first in the results list.

Bibliographic and location details

To view the full bibliographic details of an item click the **Details** link or on the title link from the Results list.

**Black holes, quasars & the universe / Harry L. Shipman.**

Other icons that may display with the holdings location are:

- 🔴
  The location is currently suspended as a lender

- 🔴
  The location will be suspended in the near future

Use the Next and Previous record links to display the bibliographic details of the next or previous item in the hitlist.
To return to the hitlist display click the **Results** option from the top menu bar.

**WorldCat link**

A link to OCLC’s WorldCat can be included in the results details when an ISBN is present in the bibliographic record. This is an optional feature in NRE/VDX.

When you click this link, a new window opens, displaying the same title in WorldCat.org.
