Print saved records

Last updated: Fri, 02 Aug 2019 19:56:53 GMT

Shows how to print individual saved records and how to print all items in a Saved List.
To mark items for printing – simply select the item or items by checking the Select check box.

Alternatively if you want to select all the records, click the Select all items option

Once the records have been selected – click the Print link.

The records will be displayed in a print preview window for confirmation. The print format can be selected at the top of the screen. By default, the records are printed in the details format, showing the full bibliographic details.
Choose the Citation format to print a citation list. This format displays the bibliographic details as a source citation.
