How does Z39.50 work?

Symptom

• You want to know how Z39.50 works

Applies to

• ILLiad

Resolution

Z39.50 is set up in the Customization Manager and it allows ILLiad to search for Local holdings you have. Here are some links to the ILLiad Documentation on Z39.50:

1. Searching & Sending Requests: Searching Local Holdings.
2. OPACs and Z39.50.
6. If you have to update your settings for Z39.50, then you need to restart the ILLiad Client after you have saved your changes in the ILLiad Customization Manager.
