In ILLiad, whenever I click on a Transaction Queue like In Stacks Searching or Awaiting Lending Scanning, I never see the requests and I want to know how to see the requests?

Last updated: Tue, 23 Jul 2019 20:53:47 GMT

Symptom

- You want to see the requests in a Transaction Queue, but when you click on the Queue, you are unable to see the requests

Applies to

- ILLiad

Resolution

If you find that there is a queue that when you try to open it by clicking on the queue name, it does not show the requests, you can view the requests by right-clicking on the queue and choose "View Requests."
