Merge CONTENTdm collections

Last updated: Wed, 13 Oct 2021 16:11:02 GMT

Resolution

Contact [OCLC Support](https://help.oclc.org/Metadata_Services/CONTENTdm/Troubleshooting/Merge_CONTENTdm_collections) to request the merging of 1 or more collections.

Include the following with your request:

1. Source collection alias and name
2. Destination collection alias and name
3. CONTENTdm server URL

Special Requirements - The unique request of what needs to happen for this to be completed is that each field property has to be in the destination collection.

When in the Field Properties of your collections. The URL in the address bar will show at the end `CISONICK=title`

You must confirm before submitting a request that each source has a destination otherwise it will fail. Contact support if you need assistance.
