Symptom

• You have some special diacritics in your URL that are not being translated by OpenURL and this is causing you issues trying to sign in with ILLiad 8.7.x.x

Applies to

• ILLiad

Resolution

The issue with the diacritics is fixed in ILLiad 9.0. You will need to upgrade to fix this problem. Information about the fix is in the ILLiad 9.0 Release Notes in the Web Pages section.
