I accidentally charged a borrowing library too much, how do I partially refund them?

Last updated: Fri, 13 Sep 2019 13:02:52 GMT

Symptom

- As a lender, it can sometimes happen you supply an item for a higher cost than you originally intended. This can occur if you accidentally select a different constant data template, or if you make a typing mistake.

Applies to

- Tipasa
- WorldShare IL

Resolution

To make sure the correct amount is billed, follow these steps:

1. Contact the library by using the **E-mail** button in the request, explaining the situation, and ask them to send a 'dummy request' to you.
2. Fulfill this dummy request with the correct charge.
3. In the original request, use the **Refund** button to refund the original charge.
