What to do if you are seeing 401 Unauthorized error in the ILLiad Client?

Last updated: Tue, 24 Sep 2019 18:10:41 GMT

Symptom

- Pending request are not downloading and you cannot search OCLC

Applies to

- All version of the ILLiad Client

Resolution

Short introduction or instructions to follow these steps:

1. Problem is being caused by the OCLC ILL Authorization being used in the Customization Manager.
2. Contact OCLC customer support and get a valid ILL Authorization.
3. They will then restart all your services and everything should start working again.
