The email associated with our Digital Collection Gateway Admin account is no longer active how can we correct it?

Symptom
- You need to replace the email address on the Digital Collection Gateway Admin account because it is no longer a working email address.

Applies to
- Digital Collection Gateway

Resolution
Contact OCLC Support with your library name, the Digital Collection Gateway Admin username or email, and a current working username or email we can replace it with.

Additional information
There is more information on setting up user accounts.
