Can I upload a patron load separate from our automated script that is sending daily loads?

Last updated: Tue, 05 Nov 2019 16:41:30 GMT

Applies to

- Patron Loads

Answer

You can send a patron load even if you have daily loads set to be sent to your FileX server. Our system will load them all the same, however, please be aware that if you load a patron load with similar data on an automated load, the data may overwrite.
