WorldCat Discovery release notes, November 2019

Introduction

This release includes several accessibility improvements. These features include:

• Options to provide translations for all free-text fields in the service configuration
• Accessibility improvements for screen reader software on Course Reserves

Many of these enhancements are the direct result of your feedback.

Recommended actions

For this release, we recommend that you review the following checklists and complete the relevant tasks so that you can adjust your policies and workflows and train your staff. These checklists identify updates that we have determined as significant for most institutions. We encourage you to review all of the items in the release notes to determine whether there are other items that might require additional action or follow up by your institution.

Administrative actions

These items require immediate action or decisions.

Include Request ID with problem reports

When reporting an issue with WorldCat Discovery, it is extremely helpful to include the Request ID. The Request ID is found at the bottom of the screen on which the issue occurred. Including this information allows us to directly trace what happened on the request we are troubleshooting.
New features and enhancements

Option to provide custom translations for all current configurable labels

Staff can now provide custom translations for all current configurable labels in Service Configuration. This includes all current fields where staff can input custom text. This enhancement brings uniformity across all modules and helps users reliably navigate the interface in their native language. Prior to this release, not all fields could be customized in this way. After this release, users will see the following 13 settings that allow for staff-provided custom text, and all existing fields use a new "Add Translations" button rather than the blue hyperlink that currently displays.

- Navigation Bar Descriptive text
- Display Text for all links
- Display Text for all fields
- Full Text OpenURL Resolvers, all labels
- Level 1 Place Hold/Request
- Level 2 Place Hold/Request
- Level 3 Place Hold/Request
- Level 1 Recall
- Resource Sharing (Any Level)
- Custom Messages
- Custom privacy policy header and message
- Custom broken link report confirmation message
- A to Z list and OCLC Link Resolver, all labels

Add Translated Display prior to release:

Add Translated Display after release:

Improved accessibility for Course Reserves landing page

In our commitment to improve the experience of WorldCat Discovery for all our users, we continue to make accessibility improvements. Users who utilize screen readers to navigate the WorldCat Discovery interface will now see the following:
Prior to this release, the searching and navigation of the Course Reserves landing page was difficult for screen readers to interpret.

## New content

This is a list of new databases added to WorldCat Discovery, WorldCat Local and WorldCat.org since our last update.

You can enable these databases as search options in the Licensed Content and Databases module of the OCLC Service Configuration site. Please remember that your library must have a valid subscription to these databases in order to enable them.
