Why isn't WorldCat Discovery searching the databases set in the default database group?

Last updated: Thu, 05 Dec 2019 20:30:56 GMT

Applies to

- WorldCat Discovery

Answer

Please, make sure that your settings from a previous search aren't being retained. If your library is using a search box or bookmark, make sure all the default databases are included.

Additional information

For more information see [Default Databases and Licensed Content](https://help.oclc.org/Discovery_and_Reference/WorldCat_Discovery/Troubleshooting/Why_isnt_WorldCat_Discovery_searching_the_databases_set_in_the_default_database_group).
