How do Authorized Users work with ILLiad?

Last updated: Thu, 12 Dec 2019 21:42:06 GMT

Symptom
• You want to add an Authorized User and you want to know how the process works

Applies to
• ILLiad

Resolution
An ILLiad User can add Authorized Users to pick up materials from a Library. You cannot have a linked account so that another user can request an item for a professor as an example. Only the Professor can request the item under their account.
