How do I see EZproxy monthly usage data and statistics?

Last updated: Fri, 15 Oct 2021 15:12:37 GMT

Symptom

- Cannot view my log files on my EZproxy Hosted server.

Applies to

- EZproxy Hosted

Resolution

In order to access your log files you will need admin credentials to your Hosted EZproxy server.

1. Please contact [OCLC Support](https://help.oclc.org/Library_Management/EZproxy/Troubleshooting/How_do_I_see_EZproxy_monthly_usage_dat...) if you need your Admin/sftp credentials

2. To access any log files, go to the URL `https://<sitename>.idm.oclc.org/public/admin.htm`. Please make sure you add your own individual server name in place of sitename.

3. Sign in with your admin credentials

4. Click on [Access Log Listing](https://help.oclc.org/Library_Management/EZproxy/Troubleshooting/How_do_I_see_EZproxy_monthly_usage_dat...) 

5. Use Ctrl+F to search the log listing
