Why can I not see the Customize Scripts tab in Record Manager?

**Last updated:** Thu, 09 Apr 2020 17:08:36 GMT

### Applies to
- WorldShare Record Manager

### Answer
You will need to make sure you have the CATALOGING_BULK_EDIT role enabled. Please see your library admin or [OCLC Support](https://help.oclc.org/Metadata_Services/WorldShare_Record_Manager/Troubleshooting/Why_can_I_not_see_the...) to have this role be added.

### Additional information
Once you have the account, you can find the Customized Scripts tab under the Toolbox in Record Manager.
