Create a WorldShare ILL account

If you already use WorldShare Management Services, WorldShare Collection Manager, or WorldShare License Manager, you have an existing OCLC Services account that gives you access to several services in the WorldShare platform. Before you log on for the first time, you will need to work with someone at your institution who has administrative rights to add permissions to your account. If you need assistance, contact OCLC Support in your region.

Best practices for creating an account

• Each user should have their own account to allow for improved security and addition of other services in the future.
• Email addresses should be an individual’s email address, and not an email address for the institution itself.

Once you are in the interface, bookmark the home page for future use.

Create, edit, or delete additional staff accounts

To create additional staff accounts:

• Navigate to the WorldShare interface > Admin tab. See the documentation on User management for more information.

To edit or delete an account:

1. Navigate to the WorldShare interface > Admin tab.
2. See the documentation on User management for more information.
